

Environmental Information and LEED® Summary

Corporate Information

Product: Brio Mesh Mid-Back (model: 2060)
Manufacturer: 9to5 Seating
Contact Information: Customer Service (888) 925-7328 or sales@9to5seating.com

Material Content Description

Material	Percent by Weight	Recycled Content ¹	End of Life Management
Metal: steel, rod, tubing, cold/hot rolled flat stock	34%	60% PC	Recycle where possible
Wood: plywood, wood parts	0%	0% From Rapidly Renewable Forests	Recycle where possible
Foam: Polyurethane	8%	0%	Recycle where possible
Fabric: Natural / Synthetic	6%	0% - 100% ²	Recycle where possible
Plastic: Polypropylene, Nylon, ABS	46%	60% PC	Recycle where possible
Miscellaneous	6%	0%	Recycle where possible
	Total Post Consumer Recycled Content	48.0% to 54.0%	

PI = Post Industrial or Pre Consumer Recycled Content PC = Post Consumer Recycled Content

¹Values are based on the recycled content of the total chair weight and the specific chair style

²Range based on specific fabric brand and type

Comments:

- 9to5 Seating complies with the FTC's Guide for the Use of Environmental Marketing Claims.
- 9to5 Seating encourages blanket-wrapped shipping - corrugated cartons are used for other modes.
- Product recycling depends on local program.

Indoor Air Quality - GREENGUARD Certification

Good, clean, indoor air quality is critical to providing healthy environments for building occupants. People today spend as much as 90% of their time indoors. GREENGUARD Certification offers a way to keep pollutants out in the first place. Using products bearing the GREENGUARD Indoor Air Quality Certified® mark can rest easy knowing these products have been independently tested and meet one of the most rigorous chemical emission standards in the world. 9 to 5 Seating's GREENGUARD Certification makes them recommended by the U.S. Green Building Council's (USGBC) LEED® Rating System. We're proud of our certification and our commitment to the environment.

LEED® 2009 Credit Information

Category	Credit	Contributes to
Materials and Resources	MR Credit 4: Recycled Content	1 -2 point(s)
Materials and Resources	MR Credit 5: Regional Materials *	1 -2 point(s)
Materials and Resources	MR Credit 6: Rapidly Renewable Materials **	1 point
Materials and Resources	MR Credit 7: Certified Wood **	1 point
Indoor Environment Quality	IEQ Credit 4.5: Low-emitting Materials ...Seating	1 point

* Contribution to this credit is only applicable if a minimum 20% of the combined value of construction and Division 12 (Furniture) materials and products is used in a project within radius of 500 miles from the 9to5 Seating factory in Southern California.

** Contribution to this credit not currently available from 9 to 5 Seating's products.

Certificate of Compliance

Brio
9 to 5 Seating

This product has been certified according to the GREENGUARD Indoor Air Quality (IAQ) Certification Program for Low Emitting Products

Certification Details:

Certificate No: 90267
Status: Certified
Period: 06/2010 - 06/2011
Restrictions: NONE

Reference Standard: GGPS.001 GREENGUARD IAQ Standard for Building Materials, Finishes, and Furnishings

Product Type: Furniture Components/Materials, Seating, and Free Standing Furniture and Furnishing Units

Criteria	Allowable Limits
TVOC ¹	® 0.25 mg/m ³
Formaldehyde	® 0.025 ppm
Total Aldehydes ²	® 0.05 ppm
Individual VOCs ³	® 0.1 TLV
4-phenylcyclohexene	® 0.0033 mg/m ³

Listing of measured carcinogens and reproductive toxins as identified by California Proposition 65, the U.S. National Toxicology Program (NTP), and the International Agency on Research on Cancer (IARC) must be provided.

Any pollutant regulated as a primary or secondary outdoor air pollutant must meet a concentration that will not generate an air concentration greater than that promulgated by the National Ambient Air Quality Standard (U.S. EPA, code of Federal Regulations, Title 40, Part 50).

See referenced standard for a complete technical explanation.

¹ Defined to be the total response of measured VOCs falling within the C₆-C₁₆ range, with responses calibrated to a toluene surrogate.

² Defined to be the total response of a target list of aldehydes (2-butenal; acetaldehyde; benzaldehyde; 2, 5-dimethylbenzaldehyde, 2-methylbenzaldehyde; 3-and/or 4-methylbenzaldehyde; butanal; 3-methylbutanal; formaldehyde; hexanal; pentanal; propanal), with each individually calibrated to a compound specific standard.

³ Any pollutant not listed must produce an air concentration level no greater than 1/10 the Threshold Limit Value (TLV) industrial work place standard (Reference: American Conference of Government Industrial Hygienists, 6500 Glenway, Building D-7, Cincinnati, Ohio 45211-4438).

Complies with ANSI/BIFMA X7.1-2007 and BIFMA e3-2008 Credit 7.6.1.

GREENGUARD Certification affirms that products meet the criteria of the referenced standard and the requirements of the specific certification program. Certification testing is conducted according to a consistent, defined protocol. The testing does not evaluate emissions under usage conditions other than those defined in the protocol and does not address potential environmental impact other than chemical and particle emissions.

The GREENGUARD Environmental Institute (GEI) is an industry independent, third-party certification organization that qualifies products for low chemical emissions. GREENGUARD Certification programs use defined product standards, test methodologies, product sample collection and handling procedures, program application processes and on-going verification procedures. GREENGUARD standards, methods, and procedures are available at www.GREENGUARD.org.
