

Versatile + Personal

As you sit, you move. That's why Move was designed to conform to the natural motion of your body. Comfortable, versatile and stackable, this lightweight seating solution offers a variety of styles and works in a wide range of settings.

Lots of looks. Move styles the way you want it. Upholster with fabric, leather or vinyl. Or choose from 144 non-upholstered seat and back color combinations.

Move chairs, stools and perching height stools are available with or without armrests, and on glides or casters, to meet almost any workspace need.

Optimized comfort. Move features adaptive bolstering that conforms to the sitter, for personalized support every time. A clever inner core system creates ideal seat comfort for a cup of coffee, quick conversation or larger group meetup.

Sit or stack. Pull up a few Move chairs for an impromptu get-together. Or gang the seats in neat rows for a presentation or training session. When it's time to tidy up, Move chairs stack 5-high on the floor, or up to 10-high on the optional dolly.

STATEMENT OF LINE
