

Turnstone Jenny Health Special

Steelcase Health customers love the Jenny chair from Turnstone. The look, feel, and comfort of the chair pairs perfectly in health environments. To better support all users within healthcare, additional enhancements have been made to the chair:

Two-inch taller aluminum legs add height to the seat allowing for a safer entry into the chair and providing users ample room to get their heels underneath them to safely get out of the chair.

Decreasing the seat angle helps users get into and out of the chair easier and offers a more secure seated posture.

Adding a crumb sweep provides an opening for waste to fall directly to the floor making cleaning easier.

The upcharge for this special is \$155, and the lead time of the chair is increased by 10 days. Special Quote number is CH017052. This special applies to the below style numbers:

TS31401 (armless) **TS31403** (right arm)
TS31402 (both arms) **TS31404** (left arm)

TS31407 (club)

Note: The Jenny Health special is only available with aluminum legs.
